

github-actions docs: update			89dcad5 yesterday	466 commits
.github	docs: edit			21 days ago
assets/media	Add files via upload			2 days ago
config/_default	Update menus.yaml			yesterday
content	Update experience.md			yesterday
data	theme: upgrade to latest master			12 months ago
exampleSite	feat: demo brand logos in Exp and Accomplishments sections			23 days ago
images	docs: edit			2 months ago
scripts	theme: upgrade to latest v4.9-dev - get singular taxonomy URLs			13 months ago
static/uploads	modules: update + convert config from TOML to YAML			2 months ago
.editorconfig	Add editor config			4 years ago
.gitignore	modules: update			3 months ago
LICENSE.md	Initial commit			4 years ago
README.md	docs: update			yesterday
academic.Rproj	add RStudio project file for R users			2 years ago
on.Rmd	feat: demo brand logos in Exp and Accomplishments sections			23 days ago

需要修改的地方:

- (1) Asset
- (2) Config
- (3) Content
- (4) Static/upload

## 一、Asset

Astron456 / Astron-s-Site

Code Issues Pull requests Actions Projects Wiki Security Insights Settings

master Astron-s-Site / assets / media /

Astron456 Add files via upload

icons/brands

icon.png

用于修改网站的图标。上传图片并替换 icon.png 即可

## 二、Config

..		
config.yaml	Update config.yaml	11 days ago
languages.yaml	modules: update - get workaround for Hugo remote figure error	2 months ago
menus.yaml	Update menus.yaml	yesterday
params.yaml	Update params.yaml	2 days ago

依次打开:

### 2.1 config.yaml

```

76 lines (69 sloc) 1.79 KB
1 # Configuration of Hugo
2 # Guide: https://www.bepco.com/docs/getting-started/
3 # Hugo Documentation: https://gohugo.io/getting-started/configuration/all-configuration-settings
4 # This file is formatted using YAML syntax - learn more at https://learnxinyminutes.com/docs/yaml/
5
6 title: Xinyi Zhang # Website name
7 baseurl: "" # Website URL
8 copyright: "" # Footer text, e.g. "[year] Me"
9
10 #####
11 ## LANGUAGE
12 #####
13
14 defaultContentLanguage: en
15 hasCJKLanguage: false
16 defaultContentLanguageInSubdir: false
17 removePathAccents: true
18
19 #####
20 ## MODULES
21 #####
22
23 module:
24 imports:
25 - path: github.com/wowchemy/wowchemy-hugo-modules/wowchemy-cms
26 - path: github.com/wowchemy/wowchemy-hugo-modules/wowchemy
27

```

Xinyi Zhang Home Experience Publications Projects Awards Contact CV

## 2.2 language.yaml

语言设置，不用管它

## 2.3 menus.yaml

```
33 lines (31 sloc) 834 Bytes
1 # Navigation Links
2 # To link a homepage widget, specify the URL as a hash '#' followed by the filename of the
3 # desired widget in your 'content/home/' folder.
4 # The weight parameter defines the order that the links will appear in.
5 main:
6 - name: Home
7   url: '#about'
8   weight: 10
9 - name: Experience
10  url: '#experience'
11  weight: 20
12 - name: Publications
13  url: '#publications'
14  weight: 30
15 - name: Projects
16  url: '#projects'
17  weight: 40
18 - name: Awards
19  url: '#accomplishments'
20  weight: 50
21 - name: Contact
22  url: '#contact'
23  weight: 50
24 - name: CV
25  url: '#about'
26  weight: 60
```

Xinyi Zhang Home Experience Publications Projects Awards Contact CV

对应 homepage 里面的栏目。注意 url: '#projects'对应的是 content->home 里面的 projects.md 文件。url 如果更改，应当对应更改 md 文件夹名称。

## 2.4 params.yaml

```
158 lines (146 sloc) 2.87 KB
1 # SITE SETUP
2 # Guide: https://wowchemy.com/docs/getting-started/
3 # Documentation: https://wowchemy.com/docs/
4 # This file is formatted using YAML syntax - learn more at https://learnxinyminutes.com/docs/yaml/
5
6 # Appearance
7
8 theme: Mr Robot
9 day_night: true
10 font: Rose
11 font_size: M
12
13 # SEO
14
15 site_type: Person
16 local_business_type: ''
17 org_name: ''
18 description: ''
19 twitter: ''
20
21 # Contact (edit or remove options as required)
22
23 email: 1814119@mail.nankai.edu.cn
24 phone: (+86)1860801056
25 address:
26   street: Tongyan Road
27   city: Tianjin
28   region: Nankai University
29   postcode: '300350'
30   country: China
31   country_code: CHN
32 # coordinates:
33 # latitude: '37.4375'
```

主题修改和字体、  
字号。我自己比较  
prefer Mr Robot  
主题。

## 三、Content

master	Astron-s-Site / content /	Go to file	Add file	...
Astron456	Update experience.md	✓ f9584df yesterday	History	
..				
authors	Update _index.md			2 days ago
home	Update experience.md			yesterday
project	Add files via upload			yesterday
publication	Add files via upload			yesterday

依次打开

### 3.1 authors

打开 content->authors->admin, 修改\_index.md 文件来修改 homepage 自我介绍; 把自己的照片覆盖传入 avatar.jpg。

The screenshot shows the Astron456 website's file manager. The file list includes `_index.md` and `avatar.jpg`. Below the file list, the content of `_index.md` is displayed in a table format. The table has columns for `title`, `superuser`, `role`, `organizations`, and `bio`. The data for Xinyi Zhang is shown. To the right, the rendered output of the `_index.md` file is displayed, showing a biography section with a photo, name, and details about research interests and education.

注意, 修改保存后文件会自动恢复如此的表格状, 如果没有, 那么是代码无法通过编译, 应当对照模板仔细审核。

### 3.2 home

The screenshot shows the Astron456 website's file manager. The file list includes `about.md`, `accomplishments.md`, `contact.md`, `experience.md`, `index.md`, `projects.md`, and `publications.md`. The `accomplishments.md` and `experience.md` files are highlighted with red boxes. To the right, the rendered output of the `accomplishments.md` file is displayed, showing a list of awards.

主要修改 `accomplishments.md` (对应 Awards) 和 `exerience.md` (对应 experience)。其它文件都是一些格式设置, 与内容无关, 无需修改; 若要修改 `md` 文件的对应关系, 需在 `config->menus.yaml` 修改。

### 3.3 project

### 3.4 publications

这两个对应 `project` 和 `publications` 的具体内容。自行修改即可。

## 四、static/uploads

这里上传简历 pdf, 在 `config->menu.yaml` 中添加 CV 的 url 即可。(我简历没写好, 所以我的网站尚未传入简历 pdf)

```
24 # - name: CV
25 #   url: 'about'
26 #   weight: 60
27
28 # link to a PDF of your resume/CV from the menu.
29 # To enable, copy your resume/CV to 'static/uploads/resume.pdf' and uncomment the lines below.
30 # - name: CV
31 #   url: uploads/resume.pdf
32 #   weight: 70
33
```

Download my [resumé](#).
